Suffixes worksheets for 6th grade

Prefixes are words you add at the beginning of the rotord. When prefixes are added, they change the meaning of the rotors. Example: the rotor ject means to fold. You will usually come across the prefixes i- and re-add to ject. They create the words inject (to insert) and reject (to throw out). In this case, the prefix gave the rotors direction. Suffixes resemble prefixes in that they change the meaning of words, but they are added to the end of the rotors. Example: root bio- means life. The words biography (the history of life) and biology (study of life) are examples of suffixes that change the roots. Exercises for understanding prefixes, suffixes and roots of words. We use them in a wide range of activities to help you master them. Prefix worksheet that explains prefixes find the meaning of the prefixes. Add mixed prefixes Add prefixes to roots to make sense.
